PRODUCT ANNOUNCEMENT 3500 SERIES V-KNOBS

August 5, 2008

Due to the ever-increasing cost of plastics, EECO Switch has determined that it is no longer practical to produce our 3500 Series “V-Knob” option in colored plastic. Effective immediately, all knobs supplied under option “V” will be black plastic. This will be a running product enhancement, and no part numbers will be changed.

We believe that “basic black” will complement any existing design currently using our 3500 series switches.

Please contact the factory if additional assistance is required.

KNOB OPTION V

Available with Extended Shaft Models only
